**NO pin here!**

PLEASE follow these rules for bib numbers. We want to avoid confusion at the finish line and assure the proper place and time for each runner. Pin the 4 small holes with safety pins (provided at check in from NYA) to your athlete's shirt. Do NOT pin in the lower left, as the bottom of the bib will be detached in the finish chute and placed on a stringer in order of finish. Also, PLEASE do not allow your athletes to trade or switch bib numbers with others. We want to try and provide the most accurate placing and time by using pre-determined assignment of bibs. The demographic information on the pull tab does NOT have to be completed.
